

## **Ceramics and Glass Fusing**

**by Slavin Studios**

**Mondays | Grades K-5 | \$286**

Here the studio art experience is brought to you! In ceramics, we work with clay sculpting, making decorative art, and functional items like useable cups and bowls. The students make and paint their art with non-toxic colors that are then transported to a kiln, bisque, and glaze fired with a clear food-safe finish. They are beautiful and durable glazed ceramics. It's fun and students will learn the fundamentals of sculpture and hand-building. Some use of drape molds and small tools. Glass Fusing is a special activity! Students take precut clear and colored glass, arrange a design using clear glue gel, and set the pieces in place. They are then transported to a kiln and fused. Some projects like tiles, hanging glass art, necklace pendants, magnets, picture frames, and nameplates are some examples. The teacher can cut certain shapes for the students. Artwork comes back to the classroom throughout the program all work received by the last class. Usually, we finish with a self-hardening clay project they take home on the last day.

## **Phreaky Physics**

**by MAD Science**

**Mondays | Grades K-2 | \$293**

Is your energy potential or kinetic? Find out with us as we explore centrifugal force & gyroscopes. Become a junior engineer and experiment with axles, pulleys, levers, gears, and wheels. Some of the weekly topics in this session are Harnessing Heat, Mad Science Machines, Mad Magnets, Super Structures, Under Pressure, "Current" Events, Lights...Color...Action! Watts Up, Energy Burst & Fundamental Forces

## **Scratch Coding Games/Stories**

**by MakeInspires**

**Mondays | Grades 3-5 | \$312**

Scratch is a programming language that enables students to create interactive stories and games using drag-and-drop programming blocks. First students create a few simple games, exploring how to code different aspects of each game, eventually gaining enough knowledge to conceive and create an original! Using variables, conditional statements, and loops to create games requires one to think outside the box to accomplish the game's intent. This gives students a glimpse into how long and hard it must be to develop and finish commercial games played at home.

## **French for Native Speakers K-1**

**by Juliet Perrachon**

**Mondays | Grades K-1 | \$364**

The Alliance Française of Westchester and Bespoke Education are excited to announce a comprehensive French program specifically designed for French-speaking students, ranging from kindergarten to 1st grade, in Westchester public schools. This innovative program will provide native French speakers with a unique opportunity to receive high-quality French instruction, comparable to the standards set in France. Our classes are exclusively led by experienced native French teachers who ensure a comprehensive and immersive learning experience tailored to each student's grade level. This program has been made possible thanks to a grant received by the French government.

## **Chess**

**by NSCF**

**Mondays | Grades 1-5 | \$208**

By learning chess, children learn thinking skills that apply to other disciplines. Chess improves concentration and self-discipline and involves all levels of critical thinking (knowledge, comprehension, analysis, and evaluation). Chess requires forethought and guardedness. Chess cultivates visualization skills and develops problem-solving skills. Chess encourages children to overcome the fear of risk-taking. Chess teaches children to assume responsibility for their decisions and encourages socialization skills that extend across cultures and generations. Chess raises self-esteem, promotes good sportsmanship, and rewards determination and perseverance. Chess is fun!

**Registration will be live on January 16<sup>th</sup>, 2024**

## **MasterChef Wizards Cooking Class**

**by Nishma Zottola**

**Mondays | Grades K-1 | \$416**

Welcome to MasterChef Wizards where we blend the joy of cooking with the magic of STEAM where the children get a sneak peek into the fascinating worlds of science, technology, engineering, art, and math. This unique kids' cooking class goes beyond the kitchen, encouraging young minds to explore the science and creativity behind each delicious dish, and the interdisciplinary approach makes learning more holistic and engaging. Our cooking classes enrichment program for elementary kids aims to provide a fun and educational experience that promotes healthy eating habits, culinary skills, and creativity. By offering hands-on cooking classes, we intend to inspire children to explore the world of food, develop their taste buds, and cultivate a lifelong love for cooking.

## **Hedgehog House**

**by Sew Happy Sewing**

**Tuesdays | Grades 1-5 | \$312**

Students will construct a square double-sided basket that is decorated with trees and woodland flora and fauna on the outside but becomes the cozy home of a hedgehog family on the inside complete with a hedgehog stuffie and keychain. A decorative carrying handle makes the project transportable. Kids in grades 1 through 5 will learn how to thread a needle, a knot, pin, and stitch with our trained instructor. Beginners are welcome in this class and experienced sewers will love working on a new project.

## **For the Love of Art**

**by Lydia Hassan**

**Tuesdays | Grades K-2 | \$247**

Create together after school in "For the love and art" class. Paint, draw, build sculptures, make mosaics, mobiles, and paper mâché.

## **Moveable Machines**

**by iCamp**

**Tuesdays | Grades K-1 | \$350**

Is your child fascinated by all things that go "vroom?" If so, iCAMP's Moveable Machines course might be exactly what the doctor ordered. Focusing on simple and compound machines that can generate power and motion without using electricity, this course provides space for students to explore their need for speed in a safe, controlled environment. Throughout the course, students will build their own helicopters, cars, gliders, and more – paired with instruction that will help them understand how and why they move. By testing and remodeling these creations, Moveable Machines students will also get a chance to flex their creative muscles and discover their own sense of invention.

## **Mighty Mechanics**

**by iCamp**

**Tuesdays | Grades 2-5 | \$349**

This course proves that science can be an exciting and dynamic discipline by putting the gears directly into your child's hands! Each lesson is designed to provide students with hands-on experience with some of the most fundamental concepts in mechanical engineering. Students will build and experiment with hydraulic grabber hands, test cars, and more, each introducing a new concept – from Newton's laws of motion to the principles of energy transfer. Better yet, their creations will give them a personal look at how all these concepts combine to define the world we live in. By the end of the course, each student will feel confident in their ability to work independently through the engineering process to design exciting, moveable machines of their own.

**Registration will be live on January 16<sup>th</sup>, 2024**

## **Basketball**

**by Young Athletes 4 Change**

**Tuesdays | Grades 3-5 | \$364**

Students will learn how to dribble with both hands, how to create space, and how to finish at the basket. Students will learn the fundamentals of shooting, including proper form, footwork, and release. Students will learn how to do basic strength training exercises, such as squats, push-ups, and pull-ups. The program will also include games and drills to help students practice their skills. The program will provide several benefits for students, including improved basketball skills: Students will learn the fundamentals of basketball and improve their shooting, dribbling, and strength training skills. Increased physical activity: Students will get regular exercise and improve their overall fitness. Reduced stress: Students will have a positive outlet for stress and have fun while learning. Improved academic performance: Physically active Students tend to have better academic performance.

## **French for Native Speakers 2-5**

**by Juliet Perrachon**

**Tuesdays | Grades 2-5 | \$364**

The Alliance Française of Westchester and Bespoke Education are excited to announce a comprehensive French program specifically designed for French-speaking students, ranging from Grade 2 to 5, in Westchester public schools. This innovative program will provide native French speakers with a unique opportunity to receive high-quality French instruction, comparable to the standards set in France. Our classes are exclusively led by experienced native French teachers who ensure a comprehensive and immersive learning experience tailored to each student's grade level. This program has been made possible thanks to a grant received by the French government.

## **Guitar for Beginners**

**by The Music Path Co.**

**Thursdays | Grades 2-5 | \$182**

Learn the basics and foundations of playing the guitar. Technique, scales, chords, melodies, and songs will all be covered. We promise to teach you as many real songs as possible! This class is a great introduction for students who might then proceed to a private teacher. We will get your hands picking, strumming, and fretting. An electric or acoustic guitar is okay (no amplifier required). Materials: Bring in a guitar you already own, or we recommend First Act guitars online as an inexpensive solution (starting around \$40). You must bring a guitar.

## **Little Builders Art**

**by Makelnspires**

**Thursdays | Grades K-2 | \$240**

Little Builders sparks creativity as students construct bridges, planes, boats, and various models. Each session introduces new materials like cardboard, Legos, and upcycled items, teaching creative construction through design-based thinking. Students engage in exciting challenges: Can your boat hold more weight? How tall can your building reach? Join this hands-on STEAM class to inspire, learn, and unleash your creative potential.

## **Cheerleading**

**by Chrissy & Raider Rec Cheer**

**Thursdays | Grades K-5 | \$260**

Come and learn the fundamentals of cheer with former New Rochelle Cheerleaders and current local high school coaches. Learn the basics in motions, cheers, jumps, and team-building games and activities. Classes are FUN and no experience is necessary!

## **French for Non-Native Speakers K-1**

**by Juliet Perrachon**

**Thursdays | Grades K-1 | \$364**

The Alliance Française and Bespoke Education are excited to announce a French language enrichment class for students, ranging from Kindergarten to Grade 1. This program is designed to introduce Francophile students to the basics of language, culture, and communication. From greetings to basic conversations, students will gain a solid foundation for further language exploration. Join us as we dive into the French world of words and expressions!

**Registration will be live on January 16<sup>th</sup>, 2024**

**[www.bgcnr.org/electives](http://www.bgcnr.org/electives)**

## **SEL Cultures Around the World**

**by S.E.L Franco**

**Thursdays | Grades K-5 | \$338**

This is a Social Emotional Learning (SEL) class based on cultures around the world. Kids will learn through dance, movement, and weekly craft mediums to facilitate SEL through art.

## **Mix Arts**

**by Plaster Palace**

**Fridays | Grades K-5 | \$292**

Enjoy pottery painting, experience mosaic, and make your own slime and graffiti shirts! Children will learn about different painting techniques while making their own personal mug or plate! Enjoy science facts while creating different slimes and decorate a picture frame with mosaic artwork!

## **Adventures with Art**

**by Nishma Zottola**

**Fridays | Grades 1-2 | \$364**

Adventures with Art classes are designed to offer a wide range of art projects that positively influence the children's cognitive, emotional, and social development. It helps to nurture their artistic abilities while fostering a positive and enjoyable learning environment. It promotes creativity, imagination, and self-expression through various art forms while enhancing fine motor skills and critical thinking. Children can celebrate diversity in art as they get introduced to artwork from various cultures and artists, fostering an appreciation for diversity and expanding their understanding of art across different contexts while creating a social and collaborative setting where children can share ideas, work together on projects, and learn from each other's unique perspectives.

## **MusicStart Keyboarding**

**by The Music Path Co.**

**Fridays | Grades K-3 | \$182**

MusicStart® is a patented progressive music learning system that balances fun and development of skills. Using familiar songs, it teaches all the necessary basics to get started playing music. The MusicStart® Keyboard uses 4 instructive Attachments that vary the challenge from color matching to letter matching to note matching and reading standard musical notation. MusicStart® is a preparation for (or a supplement to) playing any instrument and teaches step-by-step problem-solving. All materials are provided. Both new and repeat students are welcome and will be appropriately challenged. VISIT [WWW.BEGINMUSIC.COM](http://WWW.BEGINMUSIC.COM) FOR MORE INFORMATION AND AN ONLINE VIDEO OF MUSICSTART IN ACTION

## **Crayola® Wild World**

**by MAD Science**

**Fridays | Grades K-2 | \$293**

Are you ready for an art expedition? Let the wonder and beauty of the animal kingdom inspire your empathy, curiosity, and creativity. Learn about lions, elephants, sharks, and more, and find out how wildlife conservationists are working to protect species around the globe. Experiment with a variety of art techniques using Crayola® products to create animal-inspired art projects, from frog paintings to polar bear sculptures! Let your creativity run wild and bring your handiwork home to build a menagerie of animal-themed masterpieces. Our young artists will receive Crayola products to take home and wildlife trading cards that contain fun facts about the featured animal and a biography of a real conservationist working with these animals.

## **Zumba Kids**

**by Gigi Longo**

**Fridays | Grades K-5 | \$156**

Perfect for our younger Zumba Fans! Kids get the chance to be active and jam out to their favorite music. Classes feature kid-friendly routines based on original Zumba Choreography. We break down the steps and add games and activities into the class structure. Helps develop a healthy lifestyle and incorporate fitness as a natural part of children's lives by making fitness fun. Classes incorporate key childhood development elements like leadership, respect, teamwork, confidence, self-esteem, memory, creativity, coordination, and cultural awareness.
